Dear Prospective Grant Applicant:

Thank you for requesting design assistance from the volunteers of the Design Committee of the Souderton-Telford Main Streets program. We are very fortunate to have volunteers who are professionals in the design and architectural fields donating their time to help us.

Normally, they receive a professional fee for the service they are willing to provide to you through the Design Challenge Program. Because these professionals are dedicated to the mission of the Design Committee and the Souderton-Telford Main Streets, they are willing to donate their services at no cost to you.

Consequently, we ask that you respect the time these professionals have donated by completing the attached form. This information will assist them in maximizing their effectiveness within the one-hour free consultation they will be providing to you. The more information that you can provide about your building, your plans for the future of the building and what you have already done, the more efficiently these professionals can utilize their allotted time.

By working together with the Design Challenge Grant program over the next four years, we can make the incremental changes to the physical appearance of the two downtowns that will result in a "miraculous overnight improvement" to our communities.

Thank you for your interest in improving our communities.

Sincerely,

**Wendy Leshinskie**

Wendy Leshinskie  
Chair, Design Committee
